ABSTRACT

Before I write down the problem for what reason, Allah puts paradise and hell side by side, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret for what reason, Allah put paradise and hell side by side, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about for what reason, Allah put paradise and hell side by side, namely the verses:

"The paradise of 'Adn which they enter into, rivers flow under it, in that paradise they will find everything they want. Thus Allah will reward those who are pious, (An Nahl: 16: 31)

"In Paradise there will be a lot of fruit for you, some of which you eat. (Az Zukhruf: 43:73)

"And between them there is a boundary; and above A'raaf there are people who know each of the two groups by their signs. And they call out to the people of Paradise: "Salaamun 'alaikum" They have not yet entered it, while they want it immediately (Al A'raaf: 7: 46)

And the inhabitants of Paradise will cry out to the inhabitants of Hell: "Indeed, we have actually obtained what our Lord promised us. So have you actually obtained what your Lord promised?" They replied: "That's right." Then a caller announced between the two groups: "The curse of Allah is upon the wrongdoers, (Al A'raaf: 7: 44)

"Enter you into paradise, you and your wives will be rejoiced." (Az Zukhruf: 43:70)

"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises in which rivers flow. forever. They stay in it. That's a big win. (At Taubah: 9: 100)

"Then who is more unjust than one who invents a lie against Allah or denies His verses? Those people will have their share set apart in the Book; until when Our messengers come to them to take their life, Our messenger asked: "Where do you usually worship besides Allah?" The polytheists replied: "Those idols have all disappeared from us," and they admitted to themselves that they were disbelievers. (Al A'raaf: 7:37)

"So when I have perfected the event and I have breathed into it My spirit; then you should fall down prostrating to it." (Shaad : 38:72)

Allah said: "Enter all of you into hell with the jinn and humans who went before you. Every time a people enter, he curses his friend; so that when they all enter say those who enter later among them say to those who entered earlier: "Our Lord, they have led us astray, so bring upon them a double torment from hell." Allah said: "Each one gets a double, but you do not know." (Al A'raaf : 7:38)

"And verily We made for Hell most of the jinn and humans, they have hearts, but they do not use to understand and they have eyes they do not use to see, and they have ears they do not use to hear. They are like cattle, they are even more astray. They are the ones who are negligent. (Al A'raaf: 7:179)

"And if We had willed, We would have given every soul guidance, but the word has remained from Me: "Indeed, I will fill the Hell with jinns and humans together." (As Sajdah: 32:13)

"When the sun is rolled up, (At Takwiir: 81: 1)

"Their faces will be burned by the fire of hell, and they will be in that hell in disfigurement. (Al Mu'minun: 23:104)

In an effort to unmask Allah's secret about for what reason, Allah put paradise and hell side by side, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESES

Here I propose the hypothesis that Allah places heaven and hell side by side, because heaven and hell require hydrogen atoms, hell requires hydrogen atoms for fuel, heaven requires hydrogen atoms for survival "... *my spirit...*(*Shaad : 38: 72*) , viewed from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WITH WHAT REASON, ALLAH PLACED PARADISE AND HELL SIDE BY SIDE

Now, let's focus our minds again on uncovering the secret behind the verses: *"...between the two there is a limit...(Al A'raaf: 7: 46) "...the inhabitants of paradise call out to the inhabitants Hell: "Indeed we have actually obtained what our Lord promised us. So have you actually obtained what your Lord promised?" They replied: "That's right ... (Al A'raaf: 7: 44)*

It turns out that now it is revealed that paradise and hell are side by side, so that the people of paradise can directly talk to the people of hell, through sound frequency waves.

Now the question is

Why did Allah put paradise and hell side by side?

The answer is

Hidden behind the verse: *"paradise 'Adn... rivers flow beneath it,...(An Nahl: 16: 31) "...a lot of fruit... (Az Zukhruf: 43: 73) " Their faces are burned by the fire of hell... (Al Mu'minuun: 23:104)*

Now it is revealed that in paradise there is a river with water, containing oxygen atoms and hydrogen atoms and fruits containing carbon atoms and hydrogen atoms. In hell there is a burning fire whose fuel is hydrogen atoms.

Well, because paradise needs hydrogen atoms and carbon atoms for life "*...my spirit...(Shaad : 38:72)* , and hell requires hydrogen atoms for fuel, so for survival "*...my spirit.. .(Shaad : 38: 72)* which is in paradise and "*...my spirit...(Shaad : 38: 72)* which is in hell, then paradise and hell must be placed side by side. Besides to facilitate the control of the hydrogen atom which is indispensable for survival in paradise and in hell.

Now, because paradise and hell have been opened and there are inhabitants, then before "*...the sun is rolled up, (At Takwiir : 81: 1)*, where "*... the sun is rolled up, (At Takwiir : 81: 1)* around 2 500 000 000 years to come, then the light of Allah containing photons coming from the sun is used to illuminate paradise. Meanwhile, in hell comes out its own light, which is caused by the collision of hydrogen atoms with each other.

Now it has been revealed, the secret hidden behind the verses: "*...between the two there is a limit...(Al A'raaf: 7: 46)* "*...the inhabitants of paradise cry out to the inhabitants of hell: " Indeed, we have actually obtained what our Lord promised us. So have you actually obtained what your Lord promised?" They replied: "That's right ... (Al A'raaf: 7: 44)*

That is, paradise and hell were placed by Allah side by side, in order to facilitate the arrangement of the hydrogen atom, which is the fuel for hell, and the source of life for "*...my spirit...(Shaad: 38:72)* in paradise.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verses: "*...between the two there is a limit...(Al A'raaf: 7: 46)* "*...the inhabitants of paradise call out to the inhabitants Hell: "Indeed we have actually obtained what our Lord promised us. So have you actually obtained what your Lord promised?" They replied: "That's right ... (Al A'raaf: 7: 44)*

It turns out that now it is revealed that paradise and hell are side by side, so that the people of paradise can directly talk to the people of hell, through sound frequency waves.
