ABSTRACT

Before I write down the problem for what reason, most people consider the life to be separate from the body, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about why, most humans consider life to be separate from the body, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about why, most people consider the life to be separate from the body, namely the verses:

"...when Allah said: "O Jesus, indeed I will kill you and raise you to Me...(Ali 'Imran: 3:55)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And Mary, the daughter of Imran, who kept her honor, so We breathed into her some of Our spirits, and she confirmed the words of her Lord and His Books, and she was one of the obedient ones. (At Tahrir: 66:12)

"Allah is the light of the skys and the earth...Light upon light...(An Nuur: 24:35)

"Then why when life reaches the throat, (Al Waaqi'ah: 56: 83)

"And do not let their wealth and children attract your heart. Indeed, Allah willed to punish them in the world with their wealth and children and to let their lives die, in a state of disbelief. (At Taubah: 9: 85)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

In an attempt to unmask Allah's secret about why, most people consider the soul to be separate from the body, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes the hypothesis *"... my spirit... (Al Hijr: 15: 29)* which is in the entire human body seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHAT REALLY MEANS WITH LIFE FLIFTING AND LIFE UNTIL THROATED

Now, we are still trying to focus our minds in order to uncover the secrets hidden behind the verse: *"... when the life reaches the throat, (Al Waaqi'ah: 56: 83) "... so that their lives will fly away...(At Taubah : 9:85)*

It turns out that here Allah describes that actually what is called *"...the life reaches the throat, (Al Waaqi'ah: 56: 83) "... their lives float... (At Taubah: 9: 85)* is *".. My spirit...(Al Hijr : 15: 29)*

Now the question arises,

Why does Allah describe the life as floating and the life reaching the throat?

The answer is

Hidden in the secret behind the verse: *"Allah holds the soul when it dies and the soul that has not died when it sleeps... (Az Zumar: 39: 42)*

Well, it turns out that *"... Allah holds the soul when it dies... (Az Zumar: 39: 42)* meaning that Allah holds *"... My spirit... (Al Hijr: 15: 29)*

Why does Allah hold *"... my spirit... (Al Hijr: 15: 29) ?*

Because Allah *"... has breathed into it my spirit... (Al Hijr: 15: 29)*

So actually, what is meant by *"...life reaches the throat, (Al Waaqi'ah: 56: 83) "... their lives float... (At Taubah: 9: 85)* is *"... My spirit ...(Al Hijr : 15:29)*

MY SPIRIT IS UNITED IN BODY, LIFE AND BODY ARE NOT SEPARATE

Now, let's unveil the secret behind the verse: *"...I...have blown into it my spirit...(Al Hijr: 15: 29) "...into her womb...(At Tahrin: 66:12)*

Apparently, Allah has blown *"... my spirit... (Al Hijr : 15: 29) "... into her womb... (At Tahrin : 66: 12)* meaning, *"... my spirit.. (Al Hijr: 15: 29)* united in the body.

Why *"... my spirit... (Al Hijr: 15: 29)* unite with the body?

The answer is

Hidden in the secret behind the verse: *"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

So, "... my spirit... (Al Hijr: 15: 29) is blown into the mother's womb, through sperm and eggs, then becomes a fetus in the mother's womb.

After that, Allah: *"...blow my spirit into it...(Al Hijr: 15: 29) "...into her womb... (At Tahrir: 66:12)*

Well, after "... my spirit... (Al Hijr: 15: 29) is in the fetus, then *"...He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

Now, it is clearly illustrated, that *"...my spirit...(Al Hijr: 15: 29)* is united with the body, cannot be separated. Because *"...my spirit...(Al Hijr: 15: 29)* is composed of hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms. Where hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms exist in the entire human body.

Well, now it has been revealed, that life is actually *"... my spirit... (Al Hijr: 15: 29)* which is united with the body, not separated.

CONCLUSION

Based on the description above, we can conclude that the secrets hidden behind the verse: *"... when the life reaches the throat, (Al Waaqi'ah: 56: 83) "... so that their lives will fly away...(At Taubah : 9:85)*

It turns out that here Allah describes that actually what is called *"...the life reaches the throat, (Al Waaqi'ah: 56: 83) "... their lives float... (At Taubah: 9: 85)* is *".. My spirit...(Al Hijr : 15: 29)*
