## **ABSTRACT**

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding the secret of Allah, for what reason, the Prophet Muhammad saw emigrated, entered Medina, on the 12th of Rabi'ul Awwal, from the point of view of photons, quarks and molecular structures. nucleic acid or deoxyribonucleic acid (DNA)

The signs of Allah's greatness regarding Allah's secret regarding, for what reason, the Prophet Muhammad saw emigrated, entered Medina, on the 12th of Rabi'ul Awwal, namely in the verses:

*"Why do you not want to fight in the way of Allah and the weak men, women and children who all pray: "Our Lord, get us out of this land that is unjust and give us protection from the You, and give us help from Your side!" (An Nisaa ': 4:75)*

*"Do not pray in the mosque forever. Indeed, a mosque which was founded on the basis of piety (the Quba mosque), from the first day it is better for you to pray in it. In it there are people who want to clean themselves. And verily Allah loves those who are clean.(At Taubah: 9:108)*

*"Those who follow the Apostle, the unmistakable Prophet whom they find written in the Torah and the Gospel which is with them, who commands them to do what is right and forbids them from doing what is evil and makes lawful for them all that is good and makes unlawful things. for them all that is bad and remove from them the burdens and shackles that are on them. So those who believe in him, glorify him, help him and follow the bright light that is sent down to him, they are the lucky ones. (Al A'raaf : 7:157)*

*"Read in the name of your Lord Who created, (Al 'Alaq: 96: 1)*

*"He has created man from a clot of blood. (Al 'Alaq: 96:2)*

*"And warn your closest relatives (Asy Syu'araa': 26: 214)*

*"So convey openly what you are commanded and turn away from the polytheists. (Al Hijr: 15: 94)*

In an effort to open the veil of the greatness of Allah SWT regarding for what reason, the Prophet Muhammad saw migrated to Medina, on the 12th of Rabi'ul Awwal, I used the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## **HYPOTHESIS**

Here I propose the hypothesis that the Prophet Muhammad saw migrated, entered Medina, on the 12th of Rabi'ul Awwal because the birthday of the Prophet Muhammad saw, judging from the photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers.

This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **BIRTHDAY DATE, EASY FOR HUMANS TO REMEMBER**

Now, we are still trying to focus our minds in order to reveal the secret contained behind the verse: *"...the weak men, women and children who all pray: "Our Lord, bring us out from this unjust land, and give us protection from Your side, and help us from Your side!" (An Nisa': 4:75)*

Apparently, Allah has described to humans, that when humans have reached the peak of suffering and suppression, a prayer is born: *"Our Lord, get us out of this unjust land and give us protection from your side, and give us help from your side! ." (An Nisa' : 4:75)*

Well, this incident was an incident in the last moments of the Prophet Muhammad saw leaving Mecca for Medina, to continue delivering Allah's commands to all mankind, *"... convey by you openly all that was ordered and turn away from people - people who are polytheists. (Al Hijr: 15: 94)*

## **BEFORE ENTERING TO MADINA, THE PROPHET MUHAMMAD SAW BUILD QUBA MOSQUE**

Well, apparently, it is clearly illustrated to people today, that before the Prophet Muhammad saw set foot in Medina, a mosque was built in Quba.

Where is this mosque in Quba, Allah has declared: *"...Indeed, a mosque built on the basis of taqwa (the Quba mosque), from the first day it is better for you to pray in it. Inside the mosque there are people who want to clean themselves. And verily Allah loves those who are clean. (At Taubah : 9:108)*

## **THE BIRTH DATE OF THE PROPHET MUHAMMAD SAW BECOME A PILL OF THE HIJRAH YEAR**

Well, after the Prophet Muhammad finished building a mosque in Quba, coinciding with Friday, the 12th of Rabi'ul Awwal, the Prophet Muhammad saw entered Medina.

Once he arrived in Medina, the Prophet Muhammad saw built a mosque called the Prophet's

Mosque, this mosque was used as the home, place of worship and the last resting place of the Prophet Muhammad saw.

It turns out, it is now open, that the Prophet Muhammad saw to remind people, that to remember something that will become a milestone, is to remember the date of birth.

And that is what the Prophet Muhammad saw when he first set foot in Medina, coinciding with the birthday of the Prophet Muhammad, 12 Rabi'ul Awwal.

## **12 RABI'UL AWWAL 1 HIJRAH, THE PILE OF ISLAMIC HISTORY UNTIL THIS DAY**

Well, then we dismantle the secret behind the verse: *"Read in the name of your Lord Who created, (Al 'Alaq: 96: 1) "He has created man from a clot of blood. (Al 'Alaq: 96:2)*

Apparently, from the first Jibril revealed *"Read in the name of your Lord Who created, (Al 'Alaq: 96: 1) "And warn your closest relatives (Asy Syu'araa': 26: 214) "... by you openly all that is commanded and turn away from the polytheists.(Al Hijr: 15: 94) "...all pray: "Our Lord, get us out of this land that is unjust and give us protection from with You, and give us help from You!" (An Nisaa': 4:75)*

Up to the milestone on the 12th of Rabi'ul Awwal, the birthday of the Prophet Muhammad saw, coinciding with the year 622 AD, in Medina, the Prophet's Mosque was established, a mosque that was used as a house, a place of worship, the seat of the first Islamic government in the world, and the last resting place of the Prophet Muhammad saw.

## **CONCLUSION**

From what has been described above we can now conclude that the secret contained behind the verse: *"...the weak men, women and children who all pray: "Our Lord, bring us out from this unjust land, and give us protection from Your side, and help us from Your side!" (An Nisa': 4:75)*

Apparently, Allah has described to humans, that when humans have reached the peak of suffering and suppression, a prayer is born: *"Our Lord, get us out of this unjust land and give us protection from your side, and give us help from your side! ." (An Nisa' : 4:75)*
