ABSTRACT

Before I write down the problem, for what reason, some people take an inner path, to meet Allah, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret, for what reason, some humans take an inner path, to meet Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that serve as tools for revealing Allah's secrets regarding for what reason, some people take an inner path to meet Allah, namely the verses:

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"... Isa, the son of Maryam, is the messenger of Allah and His words which He conveyed to Mary, and a spirit from Him... (An Nisaa ': 4: 171)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"Have you not seen that Allah has subjected to you what is in the heavens and what is in the earth and has perfected for you His blessings both outwardly and inwardly. And among mankind there are those who dispute about Allah without knowledge or guidance and without an enlightening Book. (Luqman: 31:20)

And indeed We have revealed to Moses: "Go you with My servants at night, then make for them a dry road in the sea, you do not have to worry about being overtaken and do not have to be afraid." (Thaaha: 20:77)

"And when We parted the sea for you, then We saved you and We drowned you and your followers while you were watching. (Al Baqarah: 2:50)

The people of Moses said: "We were oppressed before you came to us and after you came. Moses replied: "Hopefully Allah will destroy your enemies and make you vicegerents on earth, then Allah will see how you do (Al A'raaf: 7: 129)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"Then He perfected and breathed into it His spirit and He made for you hearing and sight and hearts; you are very grateful. (As Sajdah: 32: 9)

In an effort to open the veil of Allah's secret about why, some people take an inner path, to meet Allah, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis to meet Allah through "... *my spirit...* (*Al Hijr: 15: 29*) which is in the human body, seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHAT IS REALLY CALLED WITH INNER PATH

Now, we are still trying to uncover the secret hidden behind the verse: "...*I breathed into him my spirit...*(*Shaad: 38:72*) or "...*I... have blown into it my spirit...* (*Al Hijr: 15:29*)

It turns out that "... *my spirit...* (*Al Hijr: 15: 29*) is the source of life for all Allah's creatures, humans, animals, plants, and any living organism on this earth.

Without, "... *my spirit...* (*Al Hijr: 15: 29*) there would be no creation of Allah on this earth.

Well, if humans are looking for what is an inner path, actually an inner path is referring to "... *my spirit...* (*Al Hijr: 15: 29*)

Through "... *my spirit...* (*Al Hijr: 15: 29*) humans come to Allah.

If kebatinan refers to psychology, as is learned in schools and universities, it is an inner path or psychology that refers to behavior.

WHY SOME PEOPLE USE THE BOAT OF EN INNER PATH, TO GO TO THE ISLAND WHERE ALLAH IS

Now, we now reveal the secret that is hidden behind the verse: "... *We revealed to Moses: "Go you with My servants at night, then make for them a dry road in the sea, you don't have to worry about being overtaken and don't be afraid."* (*Thaaha: 20:77*)

In fact, Prophet Musa to liberate the Jews who were under Pharaoh's pressure, was ordered by Allah to make a dry road in the sea, to use the crossing for the Jews who were oppressed by Pharaoh in Egypt.

Well, apparently, the liberation of the oppressed Jews in Egypt was used as a symbol to meet Allah by some humans, who were looking for and wanting to meet Allah.

So, the symbol of the road at sea is referred to as a boat, while Prophet Moses is symbolized by a person who carries and drives a boat, then the destination of the place where Moses is going is the

land promised by Allah, where in the land promised by Allah, Allah will meet. Now here, the symbol of the verse (*Thaahaa: 20: 77*)

THROUGH MY SPIRIT HUMANS WILL COME AND MEET ALLAH, ANYWHERE AND ANYTIME

Well, then we reveal the secret behind the verse: *"...Indeed We have created man and know what his heart whispers, and We are closer to him than his jugular vein, (Qaaf: 50:16)*

It turns out, Allah through *"... my spirit... (Al Hijr: 15: 29)* is closer than *"...the veins of his neck, (Qaaf: 50: 16)*

That is, Allah through *"... my spirit... (Al Hijr: 15: 29)* is in *"...the veins of his neck, (Qaaf: 50:16)*, namely in the blood.

Why is *"...my spirit...(Al Hijr: 15:29)* in the blood?

The answer is

Hidden in the secret behind the verse: *"...He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

Well, it means, *"... my spirit... (Al Hijr: 15: 29)* is as a source of life for humans, or blood, where with the presence of *"... my spirit... (Al Hijr: 15: 29)* Humans have hearing, sight and heart or brain.

Or in other words, *"... the spirit of Ku... (Al Hijr: 15: 29)* is Deoxyribonucleic acid (DNA), which according to DNA, humans are made up of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, actually *"... the spirit of Ku... (Al Hijr: 15: 29)* is made up of carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. Where these atoms exist in the universe, and this universe is, in fact, built by those atoms.

TO MEET ALLAH, YOU DON'T NEED TO USE THE INNER PATH, BUT THROUGH MY SPIRIT

So, onward, we uncover the secret contained in the verse: *"... We are closer to him than his jugular vein, (Qaaf: 50:16)*

Well, it turns out, through *"... my spirit... (Al Hijr: 15: 29)* if humans want to meet Allah, it is not by using an inner path, or ma'rifat, or dividing the sea.

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: *"...I breathed into him my spirit...(Shaad: 38:72)* or *"...I... have blown into it my spirit.. (Al Hijr: 15:29)*

It turns out that *"... my spirit... (Al Hijr: 15: 29)* is the source of life for all Allah's creatures, humans, animals, plants, and any living organism on this earth.

Without, *"... my spirit... (Al Hijr: 15: 29)* there would be no creation of Allah on this earth.

Well, if humans are looking for what is an inner path, actually an inner path is referring to *"... my*

spirit... (Al Hijr: 15: 29)

Through "*... my spirit... (Al Hijr: 15: 29)*" humans come to Allah.

If kebatinan refers to psychology, as is learned in schools and universities, it is an inner path or psychology that refers to behavior.

Why is "*...my spirit...(Al Hijr: 15:29)*" in the blood?

The answer is

Hidden in the secret behind the verse: "*...He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

Well, it means, "*... my spirit... (Al Hijr: 15: 29)*" is as a source of life for humans, or blood, where with the presence of "*... my spirit... (Al Hijr: 15: 29)*" Humans have hearing, sight and heart or brain.
