ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT about how my spirit makes love in paradise, based on photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

In the Qur'an, several verses are found that are the key to unlocking the secret of how my spirit makes love in paradise, namely the following verses:

"Beside them are angels who are not wild in sight and beautiful in their eyes, (Ash Shaaffaat: 37: 48)

"They reclined on cots in a row and We married them to beautiful angels with sharp eyes (Ath Thuur: 52: 20)

"Indeed We created them directly (Al Waaqi'ah: 56: 35)

"Allah promises the believers, male and female, Paradise under which rivers flow, they will abide therein, there are good places in Paradise 'Adn. And Allah's pleasure is greater; that is great fortune. (At Taubah: 9:72)

"Indeed Allah will admit those who believe and do righteous deeds into Paradises beneath which rivers flow. In Paradise they are adorned with gold and pearl bracelets, and their clothing is silk. (Al Hajj :22:23)

"Glory be to Him who, if He willed, He would have made for you something better than this, gardens beneath which rivers flow, and He made for you palaces. (Al-Furqaan: 25:10)

"And give good tidings to those who believe and do good, that for them there are provided gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradises, they say: "This is what was given to them. us first." They are given similar fruits and for them are pure wives and they will abide therein (Al Baqarah: 2:25)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"And We remove all kinds of hatred that are in their chests; rivers flow under them and they say: "Praise be to Allah who has shown us to this. And we will never be guided if Allah does not guide us. Verily, the messengers of our Lord have come, bringing the truth." And it was called out to them: "This is Paradise which is bequeathed to you, because of what you used to do." (Al-A'raaf: 7:43)

"Say: "O Allah, Creator of the heavens and the earth, Who knows the unseen and the real, You are the One who decides between Your servants what they always argue about." (Az Zumar: 39: 46)

In an effort to open the veil of Allah's secret about how my spirit makes love in paradise, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that my spirit makes love in paradise through interatomic, based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

MY SPIRIT'S MARRIAGE WITH NYMPH

Now, we are still trying to focus our minds in order to reveal the secret hidden behind the verse: *"they reclined on the couches in a row and We married them to beautiful nymphs with sharp eyes (Ath Thuur: 52: 20)*

Well, the marriage that is held in paradise is a marriage that is *"... unseen... (Az Zumar: 39: 46)* . That is, the true picture *"... We married them to the nymphs... (Ath Thuur : 52: 20)* is a picture in nature *"... my spirit... (Al Hijr : 15: 29)* , namely nature that cannot be seen by the human eye.

Now, the question arises, is nature *"...my spirit...(Al Hijr: 15: 29)?*

The answer is

Nature *"...my spirit...(Al Hijr: 15: 29)* is nature in the form of atoms located in the electromagnetic spectrum area below 430 nanometers and in the electromagnetic spectrum area above 740 nanometers, so that our eyes cannot see it.

Meanwhile, the human eye is only able to see light rays that are in the electromagnetic spectrum region between 430 to 740 nanometers.

Now, how about the marriage between *"...my spirit...(Al Hijr: 15: 29)* which is *"...married...with an nymph...(Ath Thuur: 52:20)?*

The answer is

The marriage *"...my spirit...(Al Hijr: 15: 29) "... with an nymph... (Ath Thuur : 52: 20)* is in the form of atoms, consisting of oxygen atoms, hydrogen, carbon and nitrogen atoms.

HOW MY SPIRIT LOVES WITH NYMPH

Well, now, *"... my spirit...(Al Hijr : 15: 29) "... We marry... with an nymph... (Ath Thuur : 52: 20)* is in

the form of atoms, consisting of oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms.

Because humans when they were still alive in the world, based on Deoxyribonucleic acid (DNA) humans were composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, when a human dies, comes out "*... my spirit... (Al Hijr: 15: 29)*" and becomes an resident of paradise. Where in "*...my spirit...(Al Hijr: 15: 29)*" contains oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms.

Now, "*... my spirit... (Al Hijr: 15: 29)*" which in paradise will be married by Allah "*...with an nymph... (Ath Thuur: 52:20)*". Of course "*...nymph...(Ath Thuur: 52:20)*" also consists of atoms, namely oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms.

Also "*...the nymphs...(Ath Thuur: 52:20)*", Allah "*...created them directly (Al Waaqi'ah: 56: 35)*".

Because, "*...the nymphs...(Ath Thuur: 52:20)*", were created from oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms, then Allah could immediately create "*...nymphs... (Ath Thuur : 52:20)*".

Now the question arises,

How does "*...my spirit...(Al Hijr : 15: 29)*" make love "*...with an nymph...(Ath Thuur : 52: 20)*" ?

The answer is "*... my spirit...(Al Hijr : 15: 29)*" making love "*... with an nymph...(Ath Thuur : 52: 20)*" is not the same when "*... my spirit... (Al Hijr: 15: 29)*" still exists in the human body that lives in the world.

Where when the humans who are in it "*... my spirit... (Al Hijr: 15: 29)*" make love, desires and passions arise that give instant pleasure and offspring.

Meanwhile, when in paradise, "*... my spirit... (Al Hijr : 15: 29)*" making love "*... with an nymph... (Ath Thuur : 52: 20)*" is not driven by desire and lust that gives pleasure fleeting and hereditary, but the existence of a deep and lasting love from both sides. A love that does not fade with time and circumstances. Because life in paradise is eternal, love is the rope with eternal life.

So marriage and love in paradise between "*... my spirit... (Al Hijr : 15: 29)*" "*... with an nymph... (Ath Thuur : 52: 20)*" is an eternal marriage and love, which is not maybe they can be separated again, "*And We remove all kinds of grudges that are in their chests ... (Al A'raaf: 7: 43)*".

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: "*they reclined on the couches in a row and We married them to beautiful nymphs with sharp eyes (Ath Thuur: 52: 20)*".

Well, the marriage that is held in paradise is a marriage that is "*... unseen... (Az Zumar: 39: 46)*". That is, the true picture "*... We married them to the nymphs... (Ath Thuur : 52: 20)*" is a picture in nature "*... my spirit... (Al Hijr : 15: 29)*", namely nature that cannot be seen by the human eye.

Now, the question arises, is nature "*...my spirit...(Al Hijr: 15: 29)*"?

The answer is

Nature "...my spirit...(Al Hijr: 15: 29) is nature in the form of atoms located in the electromagnetic spectrum area below 430 nanometers and in the electromagnetic spectrum area above 740 nanometers, so that our eyes cannot see it.

Meanwhile, the human eye is only able to see light rays that are in the electromagnetic spectrum region between 430 to 740 nanometers.

Now, how about the marriage between "...my spirit...(Al Hijr: 15: 29) which is "...married...with an nymph...(Ath Thuur: 52:20)?

The answer is

The marriage "...my spirit...(Al Hijr: 15: 29) "... with an nymph... (Ath Thuur : 52: 20) is in the form of atoms, consisting of oxygen atoms, hydrogen, carbon and nitrogen atoms.

Well, now, "... my spirit...(Al Hijr : 15: 29) "... We marry... with an nymph... (Ath Thuur : 52: 20) is in the form of atoms, consisting of oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms.

Now, "... my spirit... (Al Hijr: 15: 29) which in paradise will be married by Allah "...with an nymph... (Ath Thuur: 52:20) . Of course "...nymph...(Ath Thuur: 52:20) also consists of atoms, namely oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms.

Also "...the nymphs...(Ath Thuur: 52:20) , Allah "...created them directly (Al Waaqi'ah: 56: 35) .

Because, "...the nymphs...(Ath Thuur: 52:20) , were created from oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms, then Allah could immediately create "...nymphs... (Ath Thuur : 52:20)

Now the question arises,

How does "...my spirit...(Al Hijr : 15: 29) make love "...with an nymph...(Ath Thuur : 52: 20) ?

The answer is "... my spirit...(Al Hijr : 15: 29) making love "... with an nymph...(Ath Thuur : 52: 20) is not the same when "... my spirit... (Al Hijr: 15: 29) still exists in the human body that lives in the world.
