### ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal signs of the greatness of Allah SWT about what exactly is meant by the holy spirit, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)

There are several verses that become Allah's secret unlocking tool regarding what really is meant by the holy spirit, namely the following verses:

*"And they ask you about the spirit. Say: "The spirit belongs to the business of my Lord, and you are not given knowledge but a little." (Al Israa ': 17: 85)*

*"So he put a veil from them; then We sent Our spirit to him, and he appeared before him a perfect human being. (Maryam: 19:17)*

*He said: "Indeed I am only a messenger of your Lord, to give you a pure son." (Maryam: 19: 19)*

*"Gabriel said: "So it is." Your Lord said: "It is easy for Me; and that We may make it a sign for mankind and as a mercy from Us; and it is a matter that has been decided." (Maryam: 19:21)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"And Mary, who kept her honor, then We breathed into her a spirit from Us, and We made her and her child a great sign to the worlds. (Al Anbiyaa': 21: 91)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

In an effort to unmask Allah's secret about what the holy spirit really means, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

### HYPOTHESIS

Here I propose the hypothesis that the holy spirit is a messenger of Allah, an ordinary man, seen from the basic point of Deoxyribonucleic acid (DNA)

### DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen

atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## WHAT IS THE HOLY SPIRIT

Now, we are still trying to concentrate on revealing the secret contained behind the verse: *"So he put a veil from them; then We sent Our spirit to him, so he appeared before him a perfect human being. (Maryam: 19:17)*

It turns out, *"...Our spirit...(Maryam: 19:17)* is a messenger of Allah in the form of a perfect human being, like humans today.

Now, what is meant by *"And Maryam who has kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign to the worlds. (Al Anbiyaa': 21: 91)*

Namely *"...We breathed into it the spirit of Us...(Al Anbiyaa': 21: 91)* or Allah *"...has breathed into it my spirit...(Al Hijr: 15: 29)*

So *"... the spirit of Us...(Al Anbiyaa': 21: 91)* or *"... my spirit... (Al Hijr: 15: 29)* is the spirit of Allah, while *"...our spirit. ..(Maryam: 19:17)* is a perfect human being.

Or *"...Our spirit...(Maryam: 19:17)* is the same as the holy spirit, meaning perfect humans, like humans on this earth.

## ISA THE SON OF MARYAM WAS BORN, BECAUSE “THE SPIRIT OF US” WAS BREASTED INTO MARYAM'S BODY

Now, let's continue to uncover the secret hidden behind the verse: *"And Mary, who has kept her honor, then We breathed into her the spirit from Us... (Al Anbiyaa ': 21: 91)*

It turns out that *"... the spirit of Us... (Al Anbiyaa': 21: 91)* is the same as *"... my spirit... (Al Hijr: 15: 29)* namely the spirit of Allah which is breathed into all humans born to this earth *"So when I have perfected the event, and have breathed into it My spirit, then bow down to it by prostrating yourself (Al Hijr: 15: 29)*

So, Jesus son of Maryam was born because *"...the spirit from Us...(Al Anbiyaa': 21: 91)* or *"... my spirit... (Al Hijr: 15: 29)* was blown into Maryam's body. Same with all humans born to this earth *"...the spirit from us...(Al Anbiyaa': 21: 91)* or *"... my spirit... (Al Hijr: 15: 29)* is blown into the body of the mother who is carrying it.

So, actually Isa son of Maryam is no different from other humans who were born into this earth through the mother who conceived him.

Meanwhile, the holy spirit or *"...Our spirit...(Maryam: 19:17)* is a messenger of Allah in perfect human form, just like humans today.

## CONCLUSION

Based on the description above, we can conclude that the secret contained behind the verse: *"So he put a veil from them; then We sent Our spirit to him, so he appeared before him a perfect human being.*

*(Maryam: 19:17)*

It turns out, "*...Our spirit...(Maryam: 19:17)* is a messenger of Allah in the form of a perfect human being, like humans today.

Now, what is meant by "*And Maryam who has kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign to the worlds. (Al Anbiyaa': 21: 91)*

Namely "*...We breathed into it the spirit of Us...(Al Anbiyaa': 21: 91)* or Allah "*...has breathed into it my spirit...(Al Hijr: 15: 29)*

So "*... the spirit of Us...(Al Anbiyaa': 21: 91)* or "*... my spirit... (Al Hijr: 15: 29)* is the spirit of Allah, while "*...our spirit. ..(Maryam: 19:17)* is a perfect human being.

Or "*...Our spirit...(Maryam: 19:17)* is the same as the holy spirit, meaning perfect humans, like humans on this earth.

Now, let's continue to uncover the secret hidden behind the verse: "*And Mary, who has kept her honor, then We breathed into her the spirit from Us... (Al Anbiyaa ': 21: 91)*

It turns out that "*... the spirit of Us... (Al Anbiyaa': 21: 91)* is the same as "*... my spirit... (Al Hijr: 15: 29)* namely the spirit of Allah which is breathed into all humans born to this earth "*So when I have perfected the event, and have breathed into it My spirit, then bow down to it by prostrating yourself (Al Hijr: 15: 29)*

So, Jesus son of Maryam was born because "*...the spirit from Us...(Al Anbiyaa': 21: 91)* or "*... my spirit... (Al Hijr: 15: 29)* was blown into Maryam's body. Same with all humans born to this earth "*...the spirit from us...(Al Anbiyaa': 21: 91)* or "*... my spirit... (Al Hijr: 15: 29)* is blown into the body of the mother who is carrying it.

So, actually Isa son of Maryam is no different from other humans who were born into this earth through the mother who conceived him.

Meanwhile, the holy spirit or "*...Our spirit...(Maryam: 19:17)* is a messenger of Allah in perfect human form, just like humans today.
