ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding, my spirit, which comes out of the angel's body, lifts up and circles around the 'arsh, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

In the Qur'an, several verses are found that are the key to unlocking the secret of Allah regarding my spirit, which comes out of the body of an angel, lifts up and circles around the 'arsh, namely the following verses:

"Allah, there is no god to be worshiped except Him, the Lord of the Great Throne." (An Naml: 27:26)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are the signs of Allah's power for a people who think (Az Zumar: 39:42)

"Allah is the light of the heavens and the earth...Light upon light...(An Nuur: 24: 35)

"And you will see angels circling around the 'Throne glorifying and praising their Lord; and judged among the servants of Allah with justice and saying: "Praise be to Allah, Lord of the worlds." (Az Zumar: 39:75))

"... We made the apostle an angel... he was a man... (Al An'aam: 6: 9)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"And the angels are in the corners of the sky. And on that day eight angels will uphold the Throne of your Lord above them. (Al Haaqqah: 69:17)

In an effort to open the veil, my spirit, which came out of the angelic body, lifted and circled around the 'arsh, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis that my spirit, which came out of the angel's body, lifted and circled around the 'arsh, because the 'arsh room is full of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, viewed from the point of view of photons, quarks and Deoxyribonucleic acid (DNA.)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases.

The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

MY SPIRIT THAT WAS OUT OF THE BODY OF ANGELS, THAT WAS TAKEN BY ALLAH, GATHERED, WENT AROUND, RAISED THE 'ARSY

Now, we are still trying to focus our minds, in order to reveal the secret hidden behind the verse: *"Allah holds the soul when it dies and... He holds the soul which He has appointed for death... (Az Zumar: 39: 42)*

It turns out, *"... my spirit... (Al Hijr: 15: 29)* that comes out of the body of an angel who *"Allah holds the soul when it dies... (Az Zumar: 39: 42)* gathers around the 'arsy.

Or in other words, angels who *"Allah holds the soul when it dies... (Az Zumar: 39: 42)* and comes out *"... my spirit... (Al Hijr: 15: 29)* from the body of a dead angel, come together, while upholding and guarding a room full of hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms.

Where these atoms are indispensable for the survival of *"... my spirit... (Al Hijr: 15: 29)* in paradise. Also hydrogen atoms are needed as firewood in hell.

Where *"...my spirit...(Al Hijr : 15: 29)* this gathered will live to the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

MY SPIRIT THAT COMES FROM THE BODY OF ANGELS, ASSIGNED BY ALLAH TO KEEP PARADISE, KEEP HELL AND KEEP 'ARSY

Now, we reveal the secret behind the verse: *"And the angels are in the corners of the sky. And on that day eight angels will uphold the 'Throne of your Lord above them. (Al Haaqqah: 69:17)*

It turns out, *"... my spirit... (Al Hijr: 15: 29)* which comes out of the body of a dead angel, by Allah is assigned to *"...uphold the 'arsy of your Lord above them. (Al Haaqqah: 69:17)*

Why did Allah command *"... my spirit... (Al Hijr: 15: 29)* to *"...uphold the 'Throne... (Al Haaqqah: 69:17)?*

The answer is,

Because in this 'arsh full of hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms. Where these atoms are indispensable for the survival of "... *my spirit...* (Al Hijr: 15: 29) in paradise.

'ARSY THAT IS A ROOM FULL OF HYDROGEN ATOMS, CARBON ATOMS, NITROGEN ATOMS AND OXYGEN ATOMS

Now, we continue to unravel the secret behind the verse: "... *Allah Who has a great 'arsy*" (An Naml: 27: 26)

Apparently, the '*big 'arsy.*" (An Naml: 27: 26) is needed to store hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms, to be used as preparation, for survival "... *my spirit...*(Al Hijr : 15: 29), which is in paradise, for 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Now, it has been revealed, the secret contained in the verse: "*And the angels are in the corners of the sky. And on that day eight angels raised the 'Throne of your Lord above them.* (Al Haaqqah: 69:17)

Namely, "... *my spirit...* (Al Hijr: 15: 29) which comes out of the body of an angel who was killed by Allah, gets the task of "...*upholding the 'arsy of your Lord* (Al Haaqqah: 69:17) because in the 'arsy room is full of hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms.

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: "*Allah holds the soul when it dies and... He holds the soul which He has appointed for death...* (Az Zumar: 39: 42)

It turns out, "... *my spirit...* (Al Hijr: 15: 29) that comes out of the body of an angel who "*Allah holds the soul when it dies...* (Az Zumar: 39: 42) gathers around the 'arsy.

Or in other words, angels who "*Allah holds the soul when it dies...* (Az Zumar: 39: 42) and comes out "... *my spirit...* (Al Hijr: 15: 29) from the body of a dead angel, come together, while upholding and guarding a room full of hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms.

Where these atoms are indispensable for the survival of "... *my spirit...* (Al Hijr: 15: 29) in paradise. Also hydrogen atoms are needed as firewood in hell.

Where "...*my spirit...*(Al Hijr : 15: 29) this gathered will live to the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Now, we reveal the secret behind the verse: "*And the angels are in the corners of the sky. And on that day eight angels will uphold the 'Throne of your Lord above them.* (Al Haaqqah: 69:17)

It turns out, "... *my spirit...* (Al Hijr: 15: 29) which comes out of the body of a dead angel, by Allah is assigned to "...*uphold the 'arsy of your Lord above them.* (Al Haaqqah: 69:17)

Why did Allah command "... *my spirit...* (Al Hijr: 15: 29) to "...*uphold the 'Throne...* (Al Haaqqah: 69:17)?

The answer is,

Because in this 'arsh full of hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms. Where these atoms are indispensable for the survival of "... *my spirit...* (Al Hijr: 15: 29) in paradise.

Now, we continue to unravel the secret behind the verse: "... *Allah Who has a great 'arsy*" (An Naml: 27: 26)

Apparently, the '*big 'arsy.*' (An Naml: 27: 26) is needed to store hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms, to be used as preparation, for survival "... *my spirit...*(Al Hijr : 15: 29), which is in paradise, for 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Now, it has been revealed, the secret contained in the verse: "*And the angels are in the corners of the sky. And on that day eight angels raised the 'Throne of your Lord above them.* (Al Haaqqah: 69:17)

Namely, "... *my spirit...* (Al Hijr: 15: 29) which comes out of the body of an angel who was killed by Allah, gets the task of "...*upholding the 'arsy of your Lord* (Al Haaqqah: 69:17) because in the 'arsy room is full of hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms.
