ABSTRACT

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of the greatness of Allah SWT regarding for what reason, Allah raised humans and jinn, to the level of creation of the heavens and the earth, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).)

In the Qur'an found several verses that are the key to unlocking the secret, for what reason, Allah raised humans and the jinn, to the level of creation of the heavens and the earth, namely the verses:

"O congregation of jinn and humans, if you are able to penetrate the corners of the skys and the earth, then cross it, you cannot penetrate it except with power. (Ar Rahmaan: 55: 33)

"We will pay full attention to you, O humans and jinn. (Ar Rahmaan: 55: 31)

"Say: "It has been revealed to you that you have heard a group of jinn, then they say: Verily, we have heard a wonderful Qur'an (Al-Jin: 72: 1).

"And that when the servant of Allah stood worshipping Him, the jinn were almost forced to swarm around him. (Al Jin: 72: 19)

"The angels answered: "Glory be to You. You are our protector, not them; even they have worshipped the jinn; most of them believe in the jinn." (Saba': 34: 41)

"And that there are some men among mankind seeking protection from some men among the jinn, so the jinn add to their sins and faults. (Al Jin: 72: 6)

"And when We confronted you with a group of jinn who listened to the Qur'an, then when they attended the recitation they said: "Be quiet." When the recitation was finished they returned to their people giving a warning. (Al Ahqaaf: 46: 29)

"And verily among us there are those who are pious and among us there are those who are not. We are taking different paths. (Al Jin: 72:11)

"And verily among us are those who obey and there are those who deviate from the truth. Whoever is obedient, then they have indeed chosen the straight path. (Al Jin: 72:14)

"...Iblis. He is from the jinn group...(Al Kahf: 18: 50)

"And He created the jinn from a flame of fire. (Ar Rahmaan: 55:-:15)

"And We created the jinn before from a very hot fire. (Al Hijr: 15: 27)

"They were never touched by humans before them, nor by jinn. (Ar Rahmaan: 55: 74)

"And verily We have created man from dry clay from black mud which was given shape. (Al Hijr: 15: 26)

"And we used to be able to occupy several places in the sky to listen. But now whoever listens will certainly find fire arrows lurking. (Al Jin: 72: 9)

"O group of jinn and humans, have there not come to you messengers from your own group, who conveyed to you My Signs and warned you against your meeting with this day? They said: "We are witnesses against ourselves", the life of this world have deceived them, and they bear witness against themselves that they are disbelievers (Al An'aam: 6 130)

"And if We had willed, We would have given every soul guidance, but the word has remained from Me: "Indeed, I will fill the Hell with jinn and humans together." (As Sajdah: 32:13)

"And assembled for Solomon his army of jinn, humans and birds and then they were arranged in an orderly manner. (An Naml: 27:17)

In trying to unmask, for what reason, Allah raised humans and jinn, to the level of creation of the heavens and the earth, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Allah raised humans and jinn to the level of creation of the heavens and the earth, because humans and jinn are one type, from the point of view of photons, quarks and deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHAT'S THE DIFFERENCE BETWEEN HUMANS AND JINN

Now, we are still trying to focus our minds to reveal the secrets that are stored in the verse: *"... We created the jinn before from a very hot fire. (Al Hijr: 15: 27)*

Apparently, the jinn were created by Allah *"...from a very hot fire. (Al Hijr: 15: 27)*

That is, the jinn were created from carbon atoms and hydrogen atoms.

So, actually, between jinn and humans, there is no difference. The human body contains carbon atoms, hydrogen atoms, oxygen atoms and nitrogen atoms. Also in the body of the jinn contains carbon atoms and hydrogen atoms.

The jinn build a family, have a wife and children. *"They have never been touched by humans before them, and neither by the jinn. (Ar Rahmaan: 55: 74)*

That is, the jinn have never married women who were already in paradise, when the women were still alive on earth.

Here Allah describes that the jinn build a family and have offspring.

The Jinn believe in Allah *"...among us there are those who are pious and among us there are those who are not...(Al Jin: 72:11) "...among us there are those who are obedient and there are those who deviate from the truth... (Al Jin: 72:14)*

Likewise, *"... his army was gathered for Solomon from the jinn... (An Naml: 27:17)*

So, actually, between humans and jinn is no different. What humans do is done by jinn. What the humans believe, the jinn believe.

Only, *"...there are some men among humans asking for protection from some men among the jinn...(Al Jin: 72: 6)*

WHY Allah RAISED JIN, MORE THAN HUMANS

Well, we uncover the secret hidden behind the verse: *"... We created the jinn before from a very hot fire. (Al Hijr: 15: 27)*

That is, here Allah first created the jinn *"... from a very hot fire. (Al Hijr: 15: 27)* than Adam, who was created *"... from dry clay from black mud that was given a shape. (Al Hijr: 15:26)*

So, Allah prioritizes mentioning the name of the jinn, because the jinn were created before Adam.

HUMANS AND JINN CONTROL SCIENCE, CONCERNING THE CREATION OF THE SKY AND EARTH

Now, let's uncover the secret behind the verse: *"O congregation of jinn and humans, if you are able to penetrate the corners of the skys and the earth, then cross it, you cannot penetrate it except with power. (Ar Rahmaan: 55: 33)*

Apparently, it is clearly illustrated, here, that the jinn have knowledge about the creation of the skys and the earth, about the universe.

Why did the Jinn have knowledge of the creation of the skys and the earth?

The answer is

Hidden in the secret behind the verse: *"... we used to be able to occupy some places in the sky to listen... (Al Jin: 72: 9)*

It turns out, the jinn with knowledge of the universe can already *"...listen....(Al Jin: 72: 9)* what is happening on the planets, the stars in the Milky Way galaxy.

So, why does Allah challenge the jinn and humans *"O congregation of jinn and humans, if you are able to penetrate the corners of the skys and the earth, then cross... (Ar Rahmaan: 55: 33)*

Because, it turns out, the jinn have knowledge about the creation of the skys and the earth and about the universe.

Humans and jinn will not be able to research, navigate, explore the planets, stars in the Milky Way galaxy, if humans and jinn do not have **"...power. (Ar Rahman: 55:33)**

That is, humans and jinn will not be able to research, navigate, explore the planets, stars in the Milky Way galaxy without having knowledge about the creation of sky and earth and about the universe.

Now, the secret hidden in the verse has been revealed: **"O congregation of jinn and humans, if you are able to penetrate the corners of the skys and the earth, then cross it, you cannot penetrate it except with power. (Ar Rahmaan: 55: 33)**

That is, jinn and humans, have knowledge about the creation of the skys and the earth and about the universe.

CONCLUSION

Based on the description above, we can conclude that the secrets that are stored in the verse: **"... We created the jinn before from a very hot fire. (Al Hijr: 15: 27)**
